Scope:

This Policy applies to employees and customers identified by themselves, Future X Power, or notified to Future X Power by an independent financial counsellor or case worker as individuals who are, or may be, affected by family violence.

Definition of Family Violence:

Family violence, also known as domestic violence, refers to abusive behaviour or violence that occurs within a familial or intimate relationship. It involves a pattern of power and control exerted by one person over another, which may include physical, sexual, emotional, psychological, or financial abuse. Family violence can occur between current or former spouses or partners, parents and children, siblings, or individuals who share a close relationship.

The term "family violence" acknowledges that abuse and violence can occur within various types of family or domestic relationships, extending beyond the traditional concept of a nuclear family. It encompasses a range of harmful behaviours intended to intimidate, manipulate, or harm the victim, exerting control and instilling fear. Family violence is a significant social issue with profound impacts on the physical and mental well-being of individuals, as well as families and communities as a whole. Addressing and preventing family violence require education, awareness, support services, and legal protections.

Identification of Affected Customers:

- **Recognizing Signs:** Our employees are trained to identify potential indicators of family and domestic violence, such as emotional distress, changes in behaviour, or disclosures by the customer.
- **Sensitivity and Non-Judgmental Approach:** We emphasize the importance of maintaining a non-judgmental and empathetic approach when engaging with customers, creating a safe space for them to disclose their situation if they choose to do so, recognizing that family and domestic violence situations can be highly sensitive and confidential.

- **Providing Information:** We ensure that affected customers are informed about available support services, both internal and external, that can assist them in accessing appropriate resources and assistance.
